

DRIVER TRAINING AND COMPLIANCE DESIGNED TO REDUCE RISK TO YOUR BUSINESS.

Do you want to educate your drivers about safe driving practice as well as ensure your fleet is compliant?

Northgate Safe Driver offers a range of training courses for both drivers and fleet managers to educate best driving practices, supporting the safety and wellbeing of your drivers, which in turn can reduce insurance costs and collision rates.

The initial driver risk profile assessment covers driver attitude, knowledge, concentration, observation and hazard perception, allowing you to understand where individual driver's strengths and weaknesses lie and where to support in development and education.

In addition, Northgate Safe Driver offers a range of compliance checks including Driving Licence and Grey Fleet Checks, reducing administration and providing peace of mind that you're protecting your business and brand's reputation.

Our fleet experts can also work with you to improve your overall risk management with our Driver and Fleet Audits service, enabling you to achieve your fleet's objectives, and identify where you can reduce fleet costs.

COMPLIANCE

Full visibility of all checks in one central dashboard

Validate your drivers' licences with results in seconds using our automated driving licence check. Our Grey Fleet Checks ensure all employees owned vehicles that are for business use, have the correct insurance, up to date MOT and vehicle tax.

Identify where your fleet can reduce costs

Our Driver and Fleet Audits reviews your current fleet policy and can help improve the performance of your fleet. (ISO:39001 Road Traffic Safety Management Systems accredited services).

Keep your drivers safe and reduce risk

Gain full visibility of the risk areas across all your drivers with a driver risk assessment. The customer dashboard provides a full analysis of your driver's scores and recommended e-Learning training, with up to 12 courses available.

TRAINING

e-Learning

A range of interactive online e-Learning modules, designed to improve your drivers' knowledge and driving skills.

Workshop Training

Full and half day workshops available with a variety of specialised subjects at a suitable location.
