

## USING DATA TO DELIVER BUSINESS EFFICIENCIES.

## THAT'S VANONOMICS.

### The power to drive efficiency at your fingertips.

At Northgate, we understand how important your vans are to your business which is why we've designed a range of Telematics solutions to give you the control you need and peace of mind that your vehicles are productive, operationally efficient and safe.

Our Telematics packages are transforming the way operators of fleets can deliver cost efficiencies, improved driver safety and efficient customer service. **Control** focuses on vehicle monitoring and **Control+** adds the ability to track driver behaviour with enhanced reporting.

By combining Telematics with our camera bolt-on you can obtain footage of collisions, near misses or harsh driving which can help protect your business against false insurance claims, driving allegations and can be used as evidence to dispute liability.

Speak to your account manager and see how Northgate Telematics Solutions could help your business.

#### Key Benefits

-  **Vehicle tracking made easy**  
Track all your vehicles in real time, making route planning and job allocation quicker and simpler.
-  **Effective cost management**  
Use data and insight such as vehicle idling and fuel consumption to reduce the cost to run your vehicles.
-  **Reduce business risk**  
Analyse data including speed and harsh events\* to track how the vehicles are being driven and act on it to reduce incidents and keep compliant.
-  **Simple to set up**  
With no contract needed and no set up fees, it's quick and easy to apply Telematics to your fleet.

#### How it works

1. Select the right package to suit you and if you're not sure we can help you choose.
2. We'll set up and fit your vehicles with the necessary equipment at a time that's convenient to you.
3. You'll receive training to make sure you're comfortable with the system.
4. We'll then be on hand for any support or questions you may have.

\*Harsh events data only available with Control+.

Our flexible solutions come in two packages tailored to suit your business needs.

			Control	Control+
Features	Live vehicle tracking	Log on to see live updates on where your vehicles are at any time	✓	✓
